Homeowner Request For Authorization to Perform Work in the Buffer Zone(s)

As the requesting homeowner and in accordance with the below noted Covenant, I understand that I must obtain permission to remove trees, remove understory vegetation, and create a path from my personal property through the Buffer to the Lake in accordance with the Buffer Zone Policy posted at www.LJvillages.com. I further understand that I am financially responsible for any work performed in the Buffer contiguous to my personal property and that I must inform all contractors performing work in the Buffer on my behalf that they must access the Buffer from my personal property so as not to cause damage to any common area property or personal property of another homeowner.

Article IV: Covenant and Maintenance for Assessments, Section 2. Purpose of Assessments, item (b): Deeds to Owners of Lakeview Lots contain an easement for ingress, egress, and regress and a right of use for boating and fishing across a portion of the Lake Tract contiguous to such Lot (which portion is specifically shown on a survey attached to the deed). The conveyance of such easement and right of use is subject to all the terms and conditions set forth in the Association Lease. The Association shall have no responsibility for the upkeep and maintenance of the portions of Common Area or Lake Tract included in such easement, but rather the responsibility for such maintenance and upkeep (including the cutting of grass and weeds, cleaning and picking up of trash) shall be the responsibility of each Lakeview Lot Owner as provided in such Owner’s deed.
