GAS LANTERNS

If the gas lantern is malfunctioning – contact a plumbing company. They usually charge a service fee to check and light the lantern and replace the mantel (approx. \$80 - \$100). If there are additional problems, there would be additional costs. If you do not have a plumbing company that you use for your home, try one of the following. The HOA uses both of these companies.

Pete Wall Plumbing

835 Winston St.

Greensboro, NC

Petewallplumbing835@gmail.com

If the lantern needs replacing, the following company has been used by several members:
American Gas Lamp Works <http://americangaslamp.com>
